## *The Marietta*

EIGHT ROOMS

2,607 SQUARE FEET

54,540 CUBIC FEET

THE Marietta is an attractive double bungalow with an entryway that gives it the appearance of a single home, yet it has comfortable accommodations for two families with two bedrooms for each family. The stone front, picture windows and attractive entrance give a most pleasing appearance to the exterior of this well-planned income home. Large closets have been provided for each of the bedrooms and the hall linen closet is conveniently near the bedrooms and bath. The well-planned kitchen has abundant cabinets and working space and an exceptionally convenient space set aside for eating. The living rooms are large and pleasant with a handy coat closet near the front entrance. The Marietta is a sound investment from every point of view.

Classification 511-7745

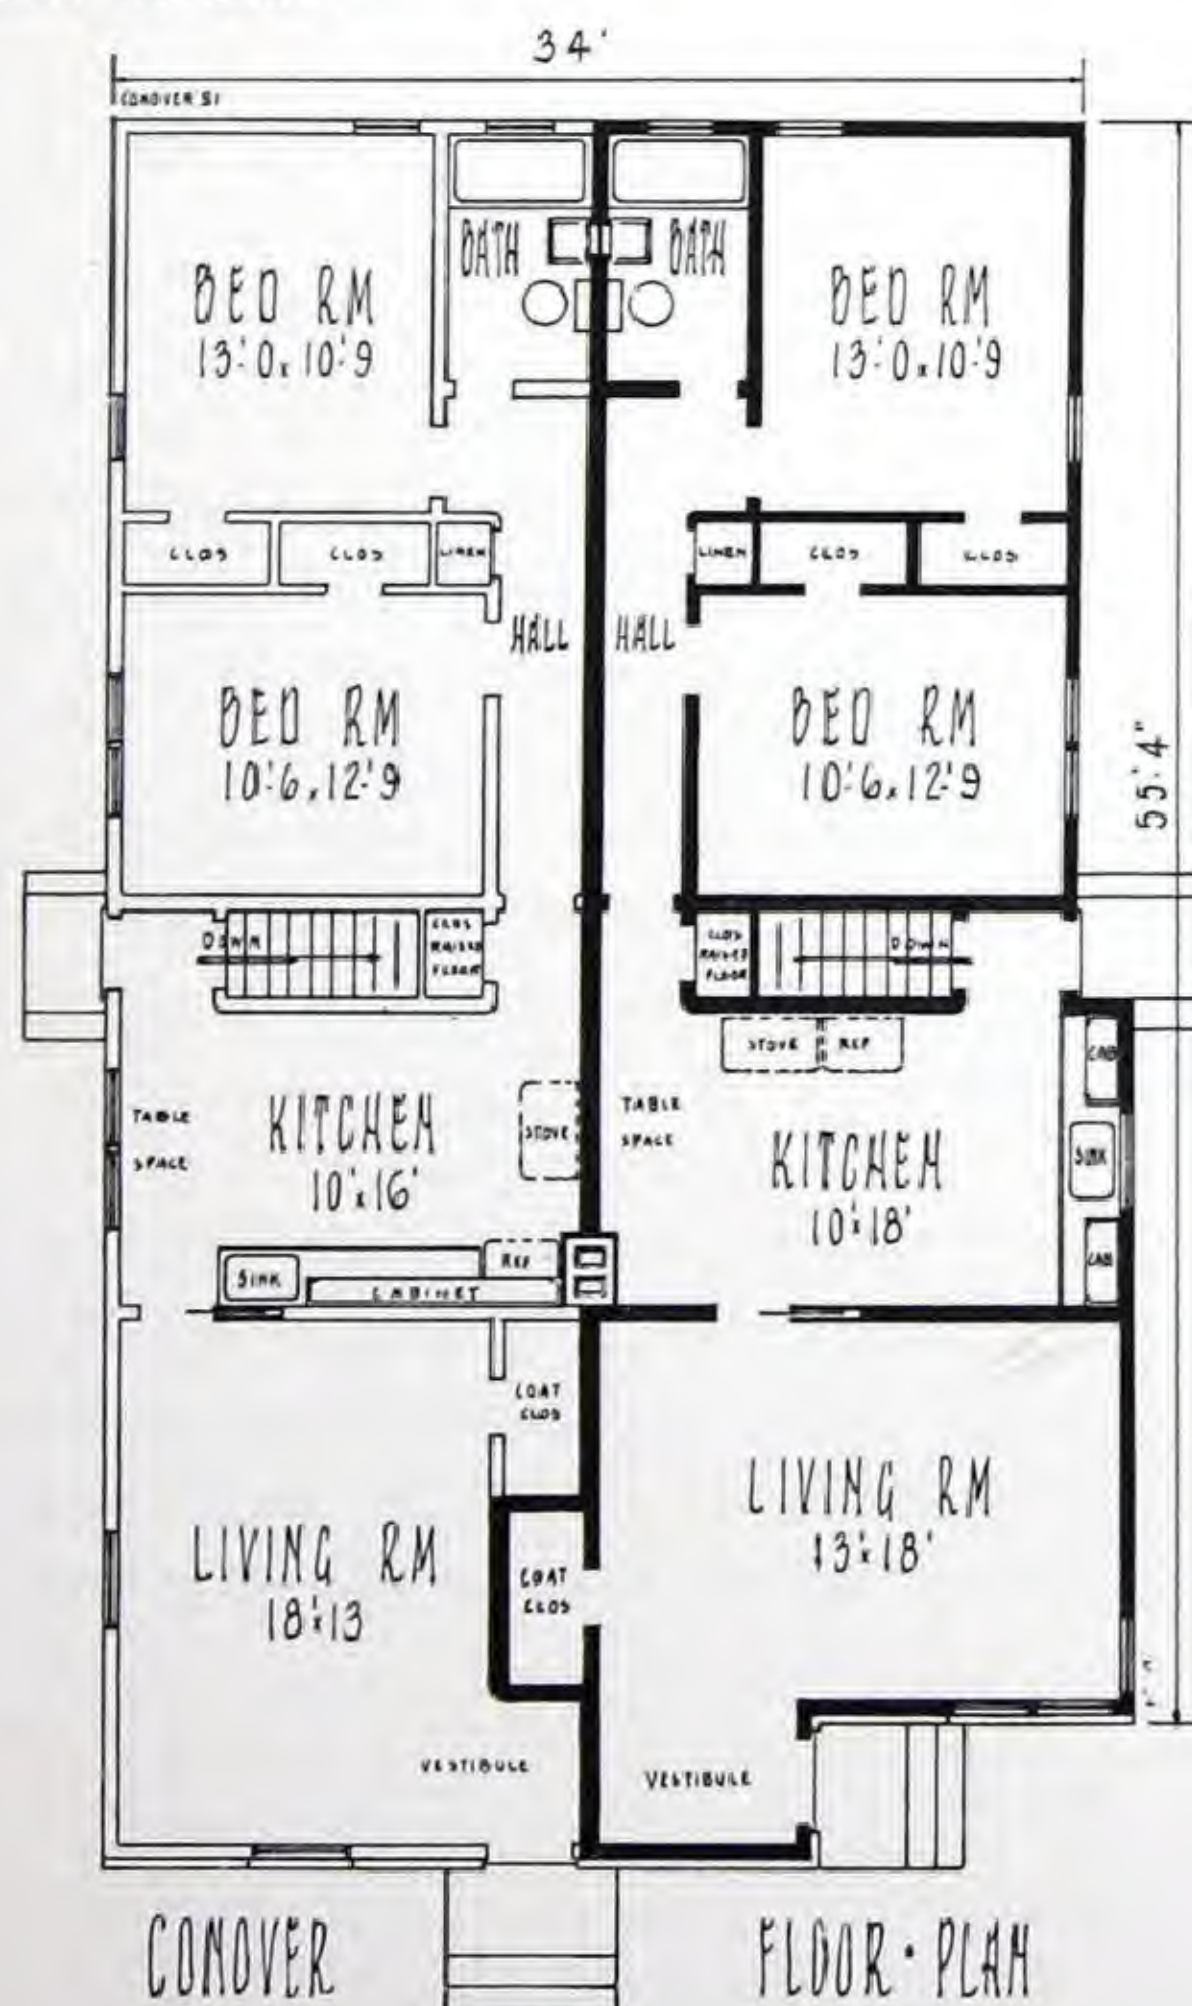

## *The Conover*

EIGHT ROOMS

1,995 SQUARE FEET

40,725 CUBIC FEET

THIS double bungalow offers maximum privacy for the occupants. Each unit has separate front and side entrances, with the side entrances leading either to the kitchen or the basement provided for each. The center halls tend to eliminate any sound carrying from one side to the other.

The stone front, large picture window, corner windows, and the ornamental railings on the front steps all lend to the final attractive exterior of the home.

Each unit has two bedrooms, with ample closet space, full bath, a well planned kitchen with dining space, and a large comfortable living room. In planning an income home everything has been considered in the Conover.

Classification 194-190

Classification 910-3470

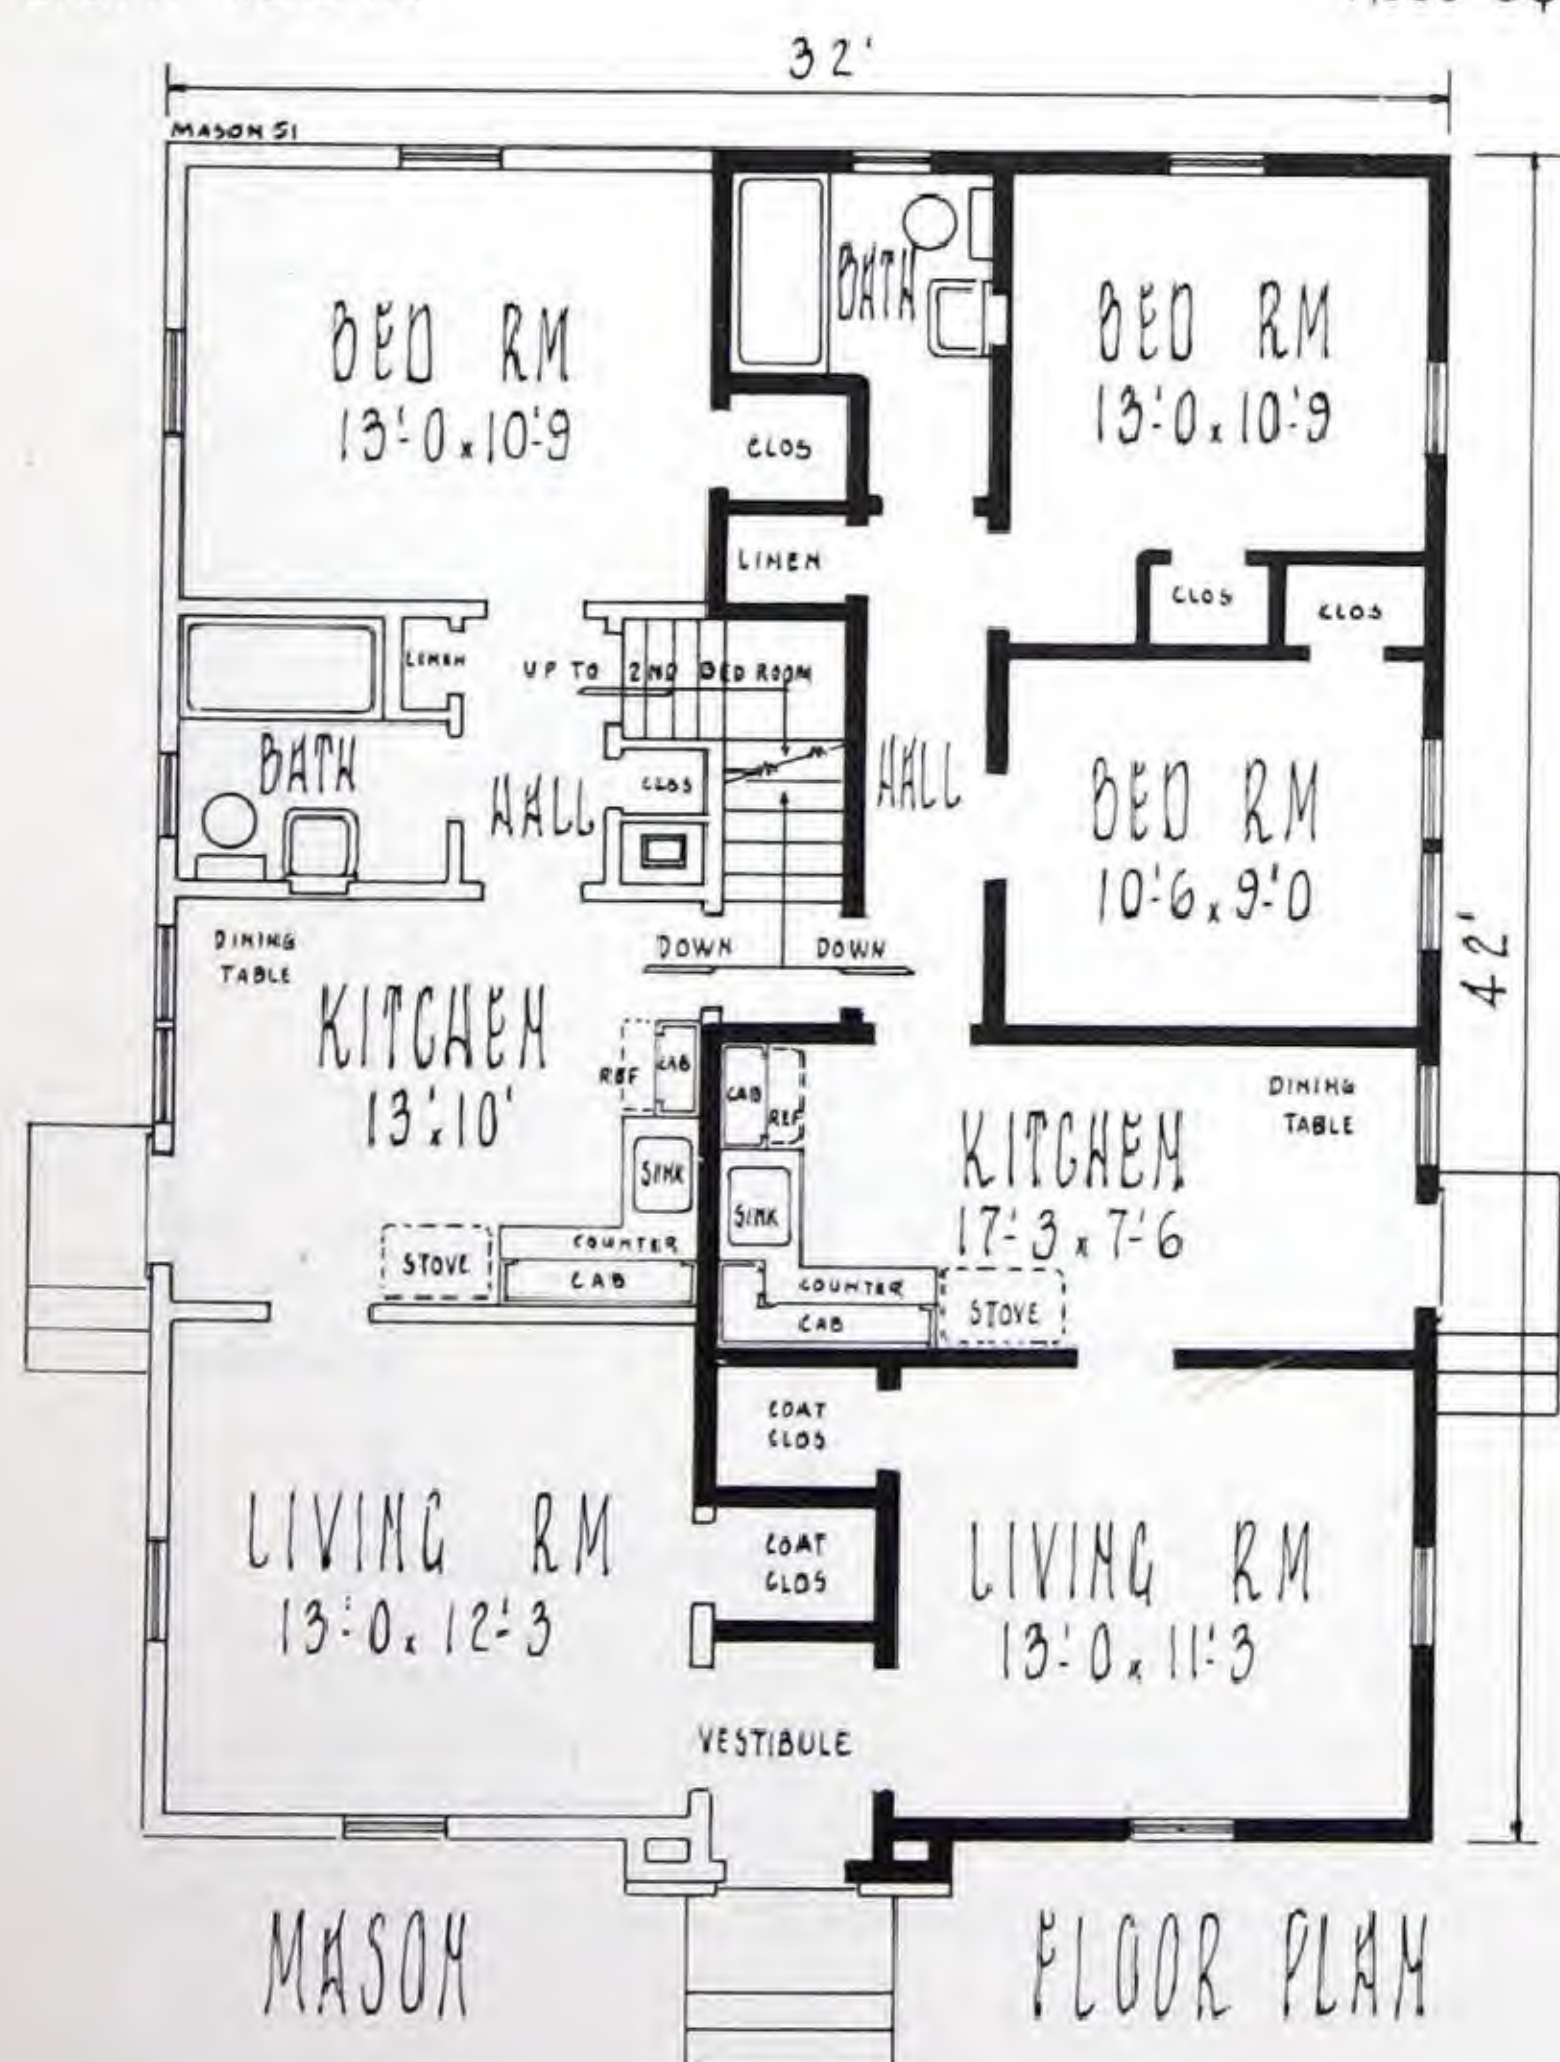

## *The Mason*

EIGHT ROOMS

1,356 SQUARE FEET

32,480 CUBIC FEET

**G**OOD living and good income are achieved in the planning of this two family home. The Mason has an outward appearance of a single home but offers two bedrooms, bath, combination kitchen and dining area, and a large living room in the right unit. The left unit has living room, kitchen, dining area, bath and one bedroom on the first floor with ample space for one or two bedrooms on the second floor. Each unit has fine closets and the full basement of the Mason, combined with the modern stucco and brick exterior complete this sound investment home.

Classification 183-520

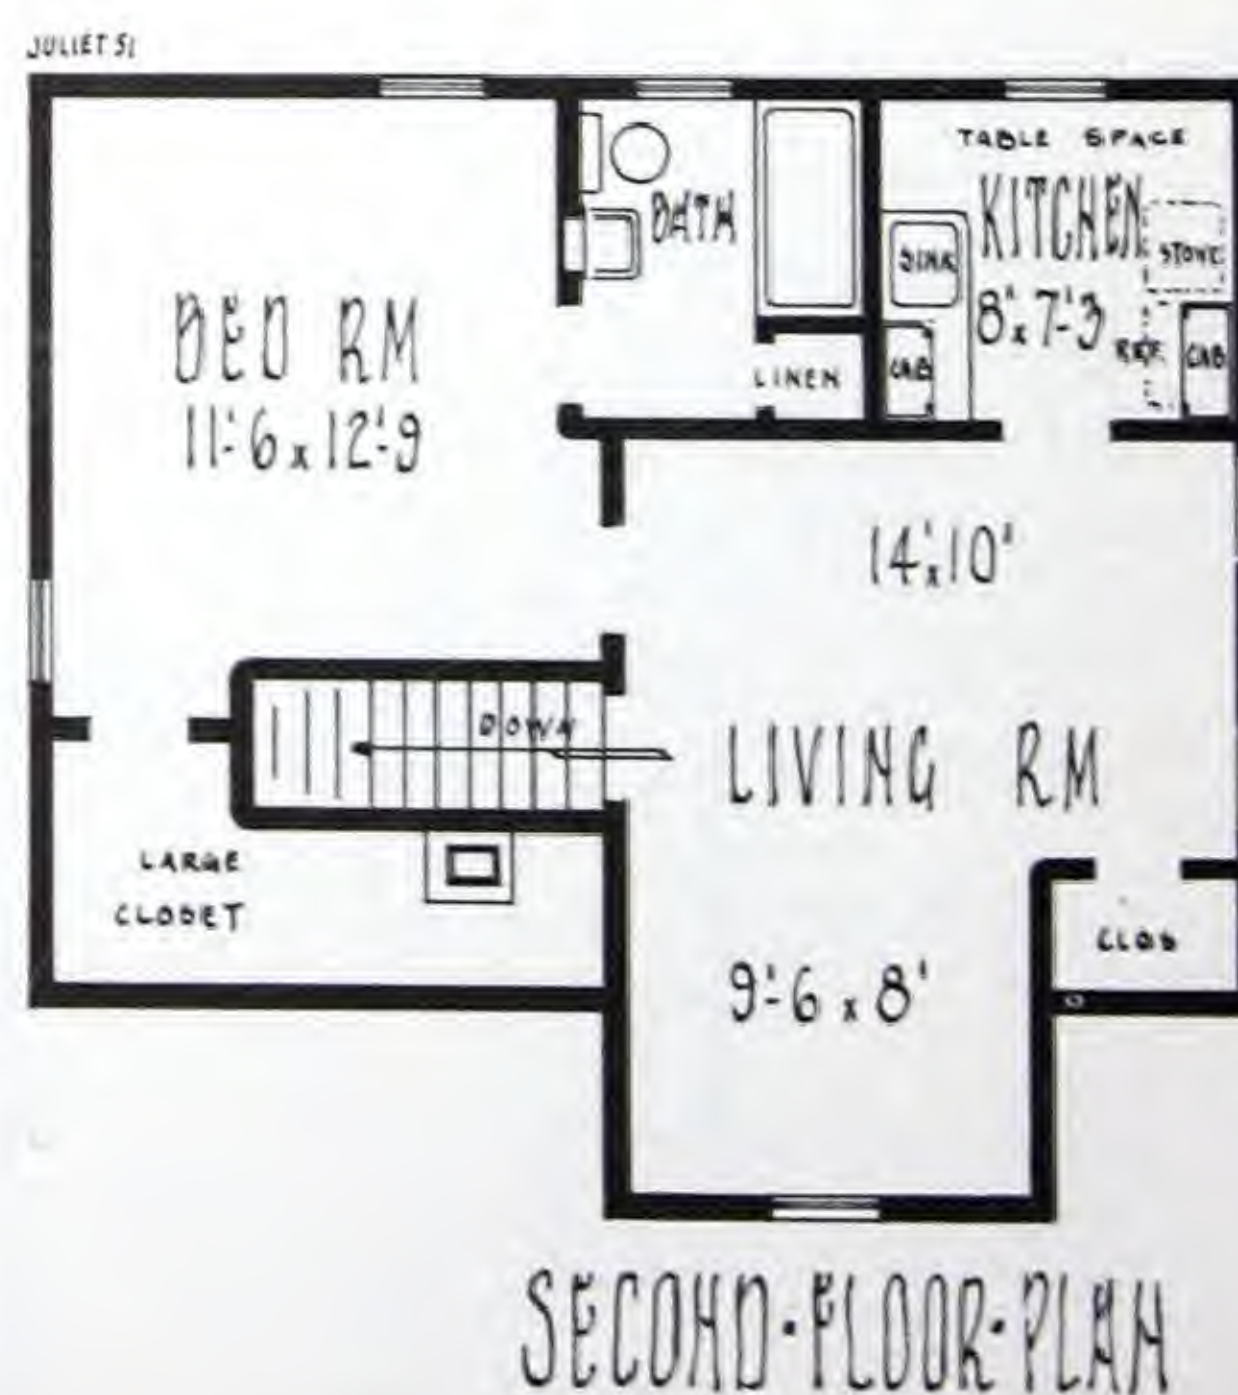

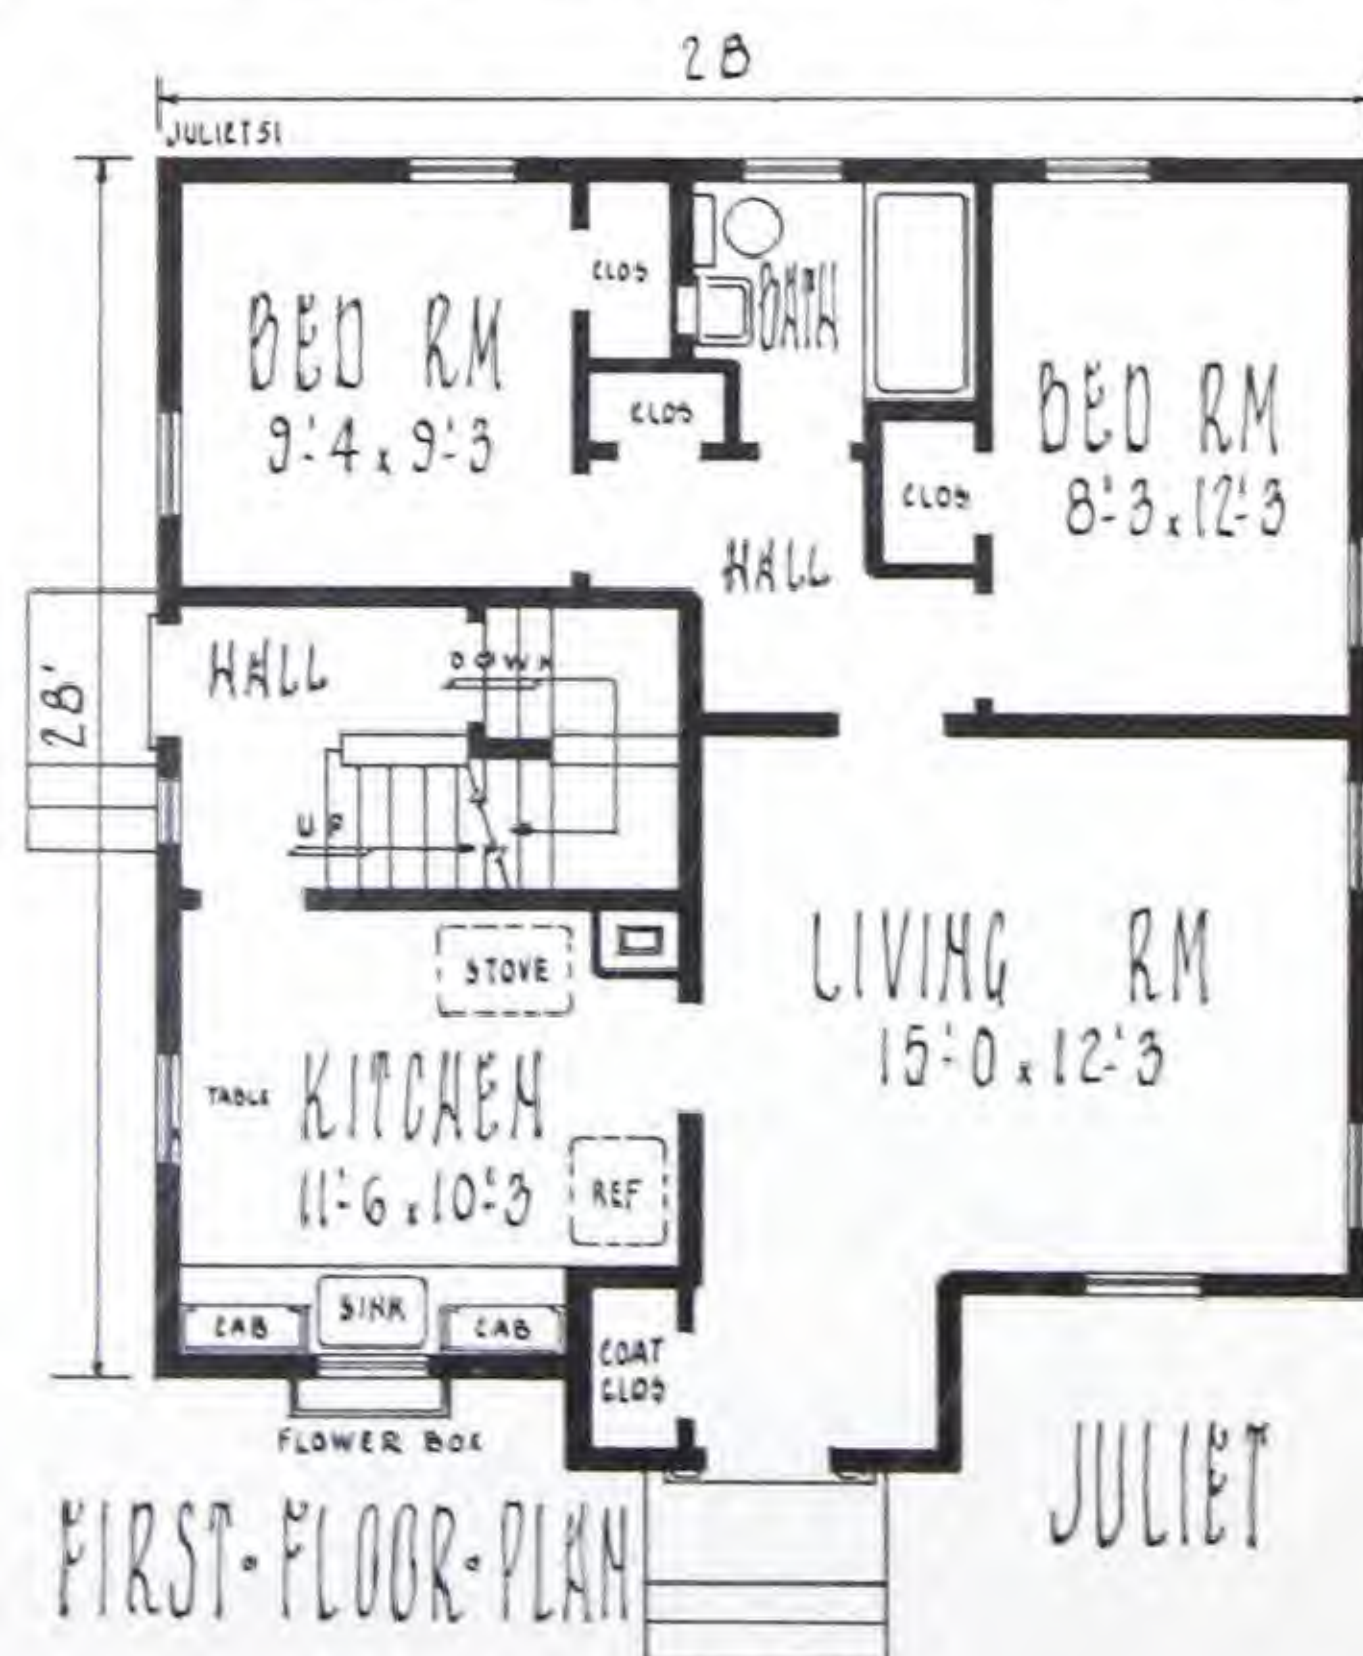

## *The Juliet*

SEVEN ROOMS

784 SQUARE FEET

18,540 CUBIC FEET

IN THE JULIET you find a story and a half duplex with a lower two bedroom apartment and an upper one bedroom apartment, each having all the modern conveniences of a larger home. The "Residential Look" of the exterior makes this income home an ideal investment.

Classification 165-840

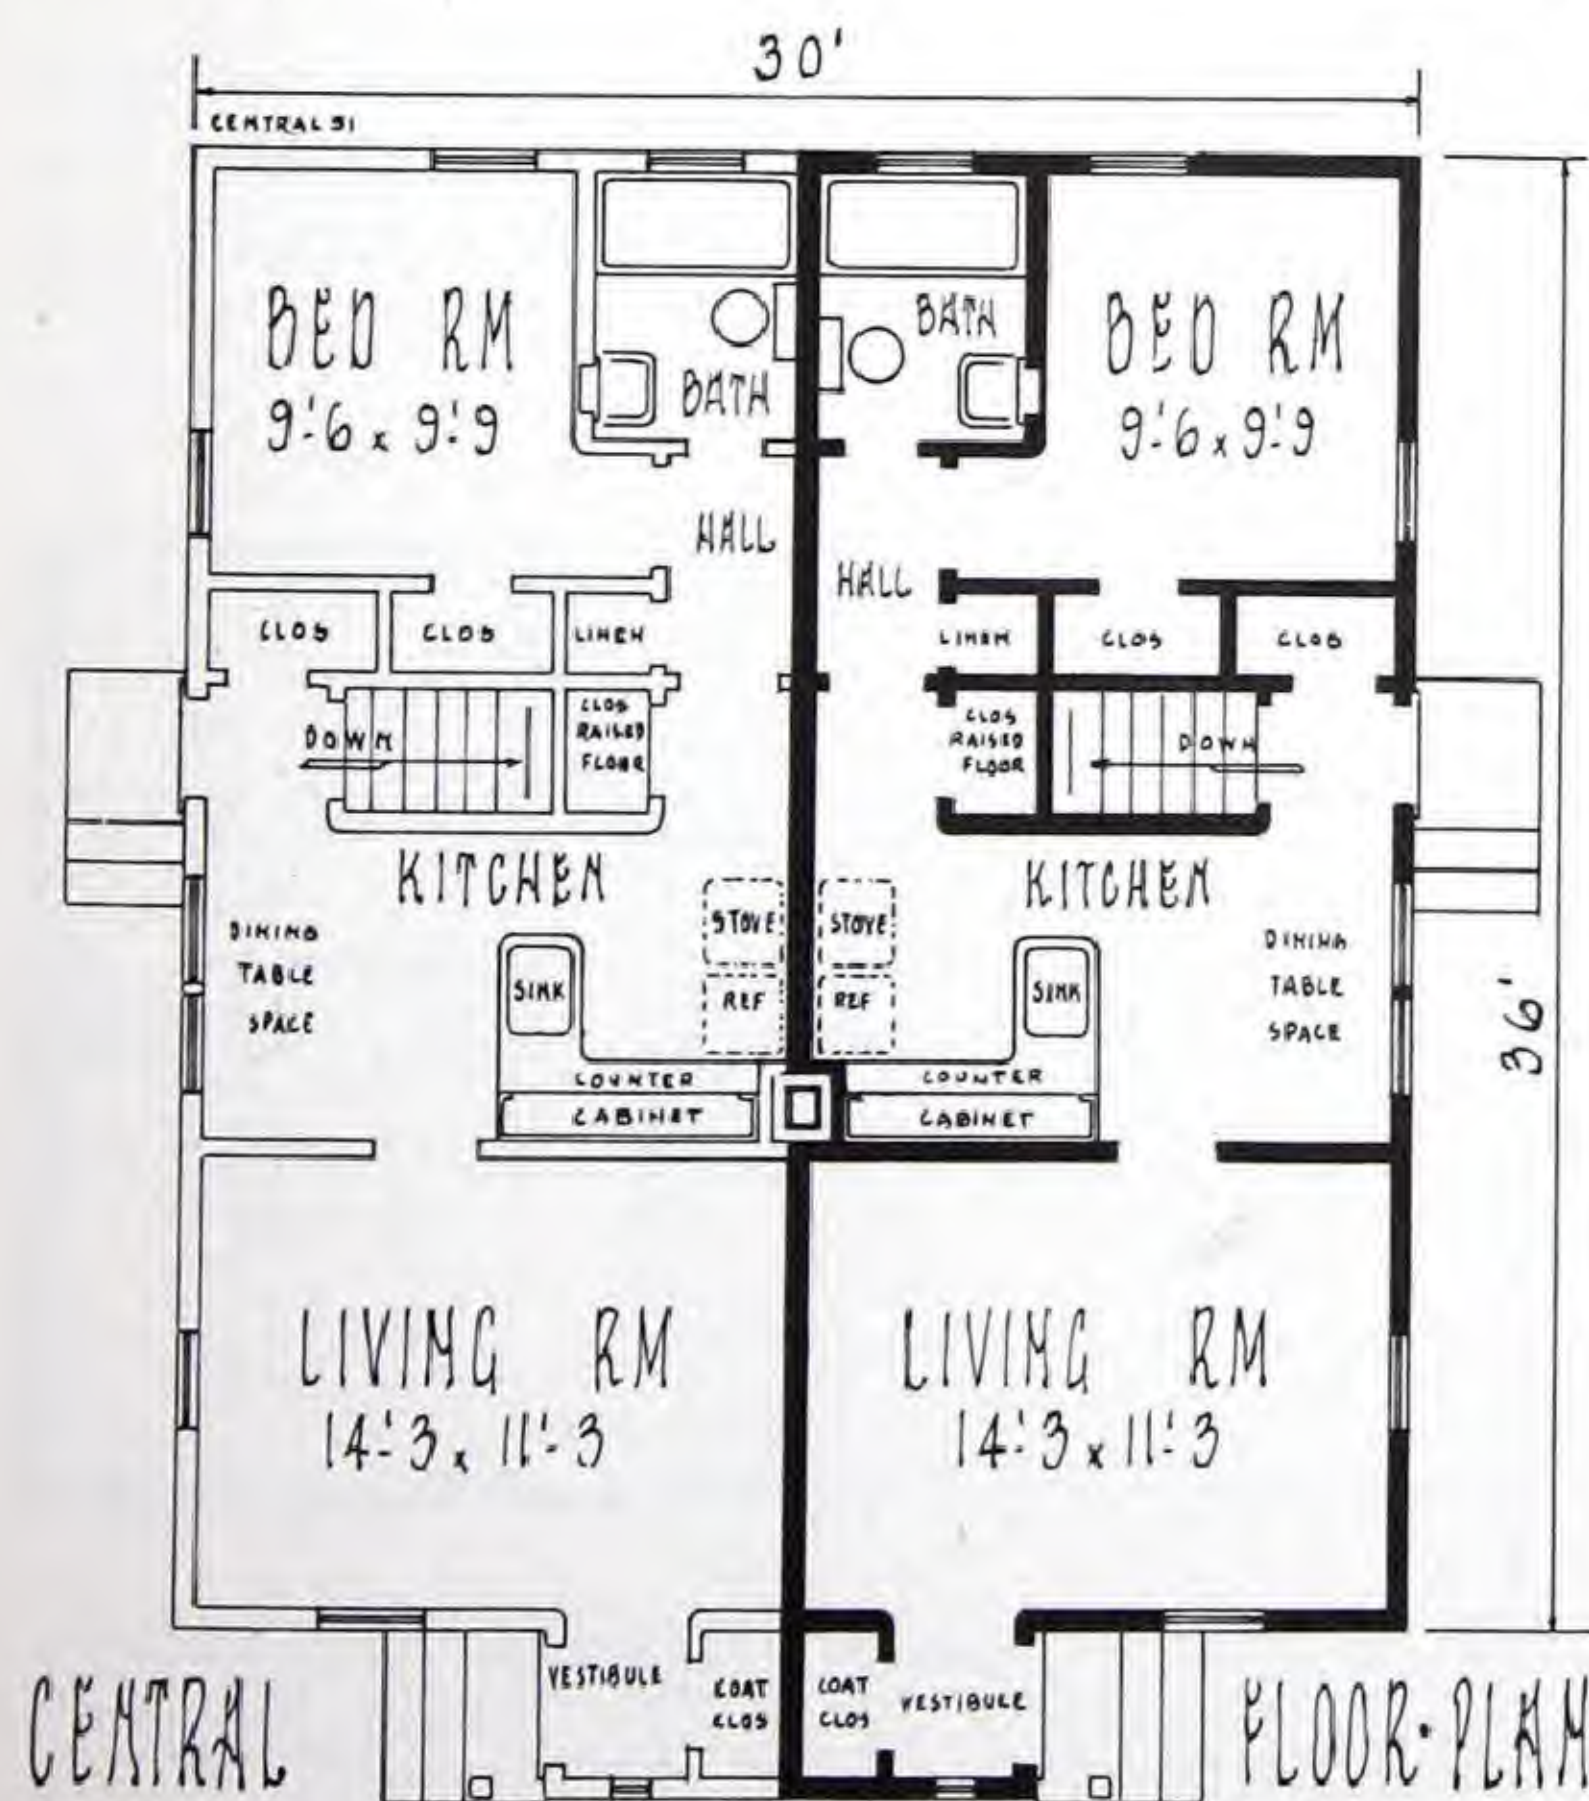

## *The Central*

SIX ROOMS

2,300 SQUARE FEET

24,670 CUBIC FEET

**N**OTHING has been overlooked in the planning of this economical duplex. Complete privacy is attained by the sound-proofed dividing wall, separate entrances to the living units, each consisting of living room, kitchen and dining area, full bath and bedroom. Private basements and ample closet space are provided. The Central has an attractive exterior and the relatively small foundation assures low construction and maintenance costs, making it an ideal investment in a small two family home.

Classification 157-070

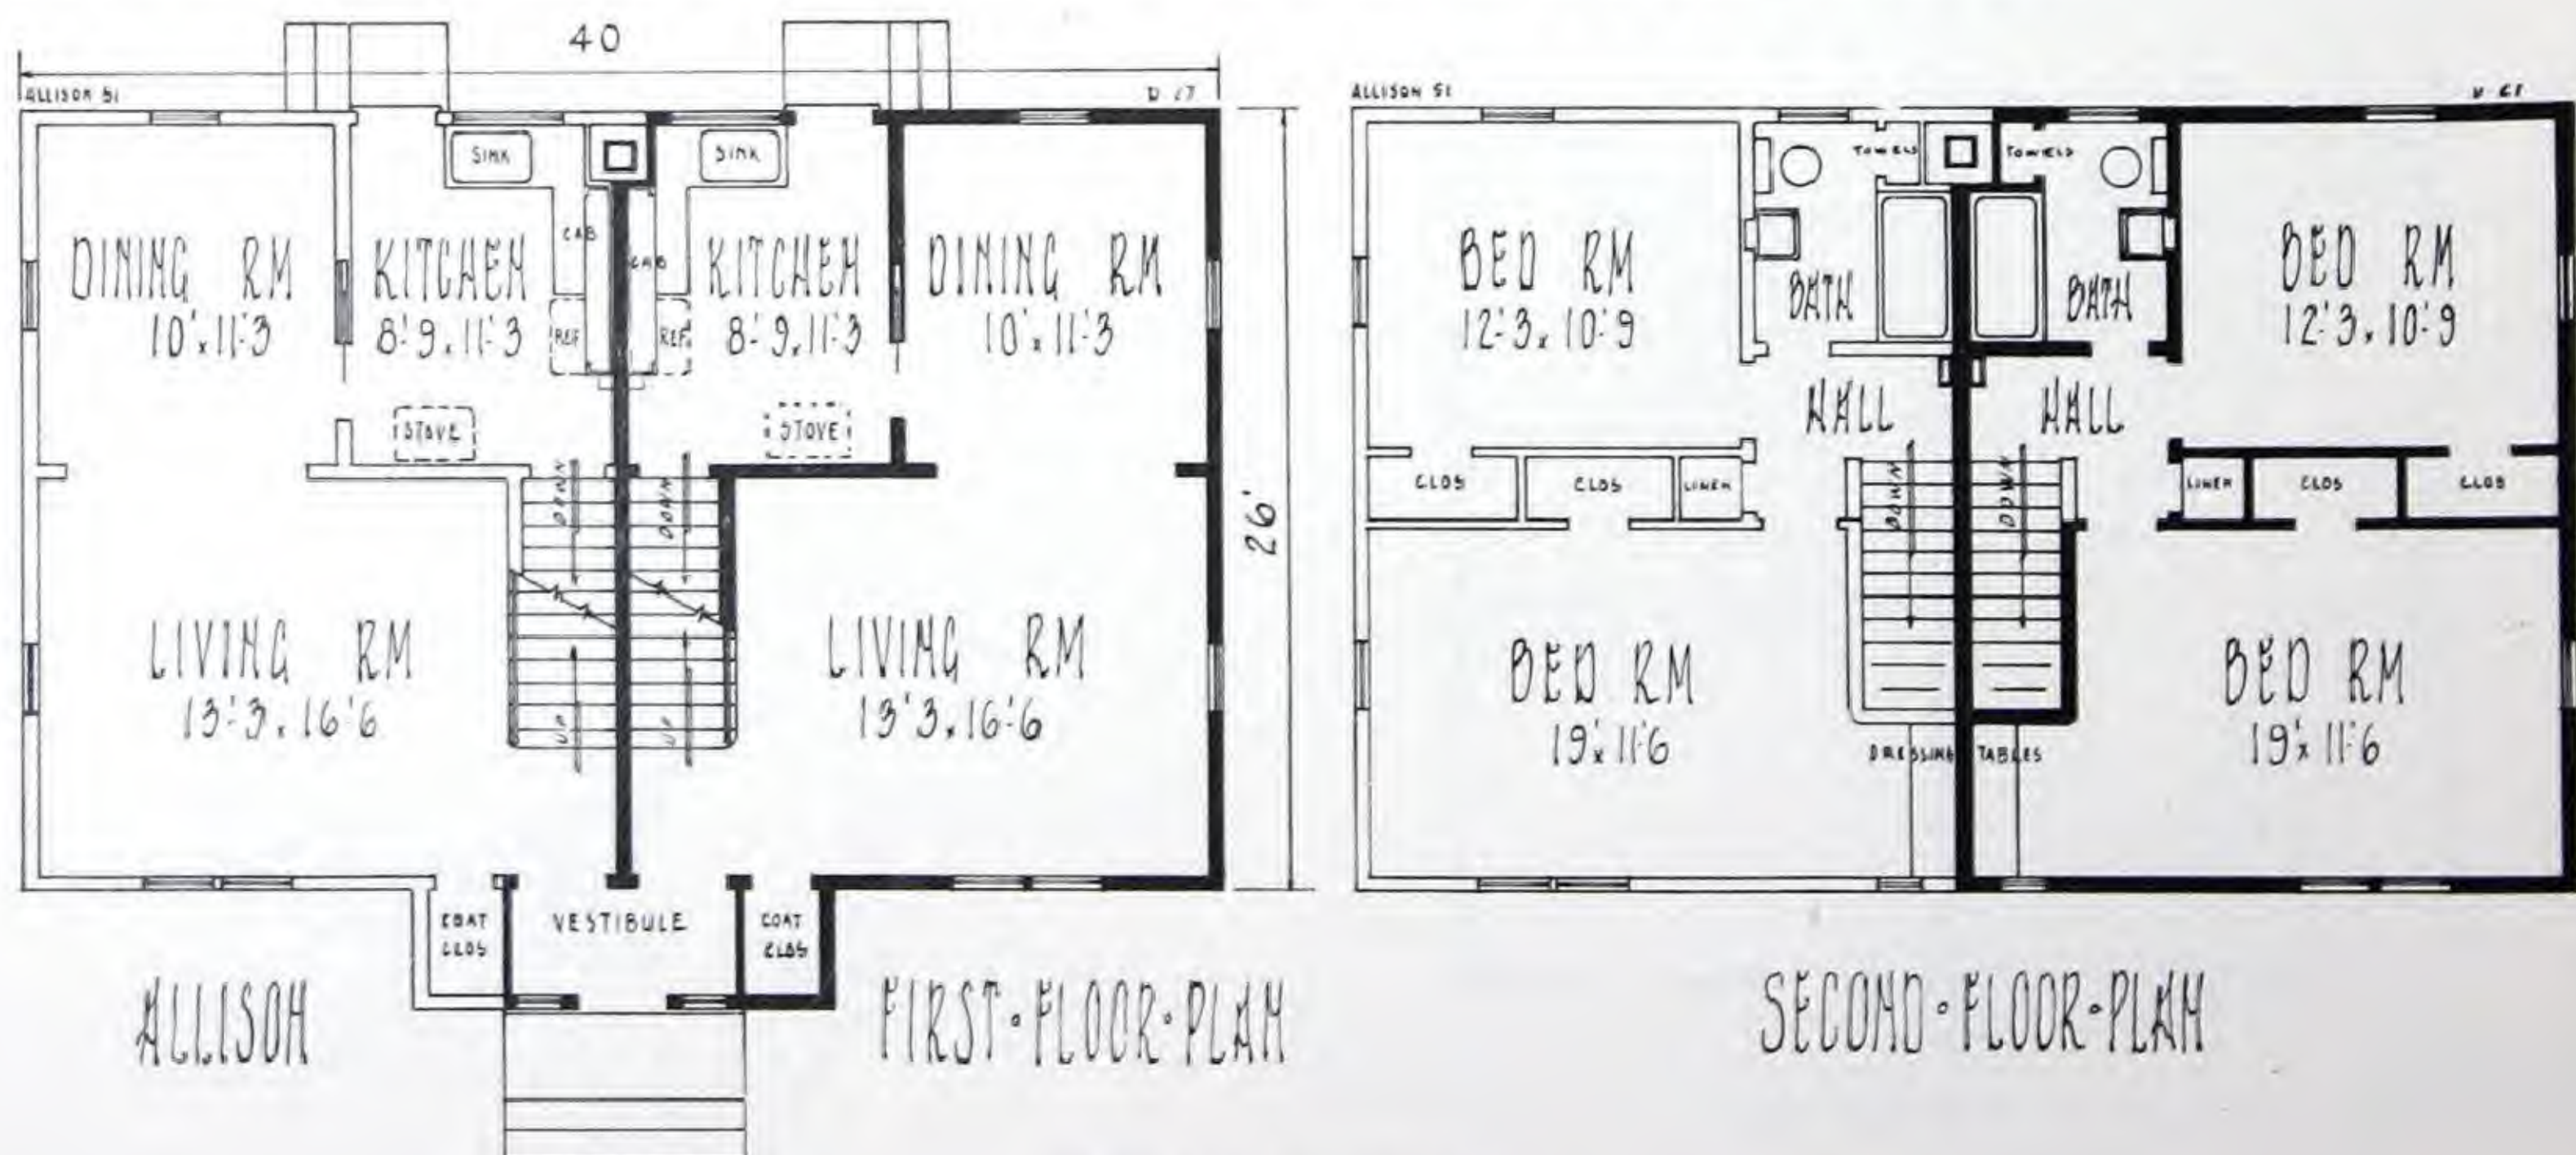

## *The Allison*

TEN ROOMS

1,096 SQUARE FEET

31,200 CUBIC FEET

**E**ACH apartment of this colonial double home has 2 floors thereby eliminating the annoyance of overhead noises. The large living room, dining room, kitchen, two bedrooms and bath are all that is needed for the average family. Spacious closets, separate rear entrances and basements, are other features which make the Allison a comfortable and pleasant home to live in as well as a sound investment.

Classification 192-280

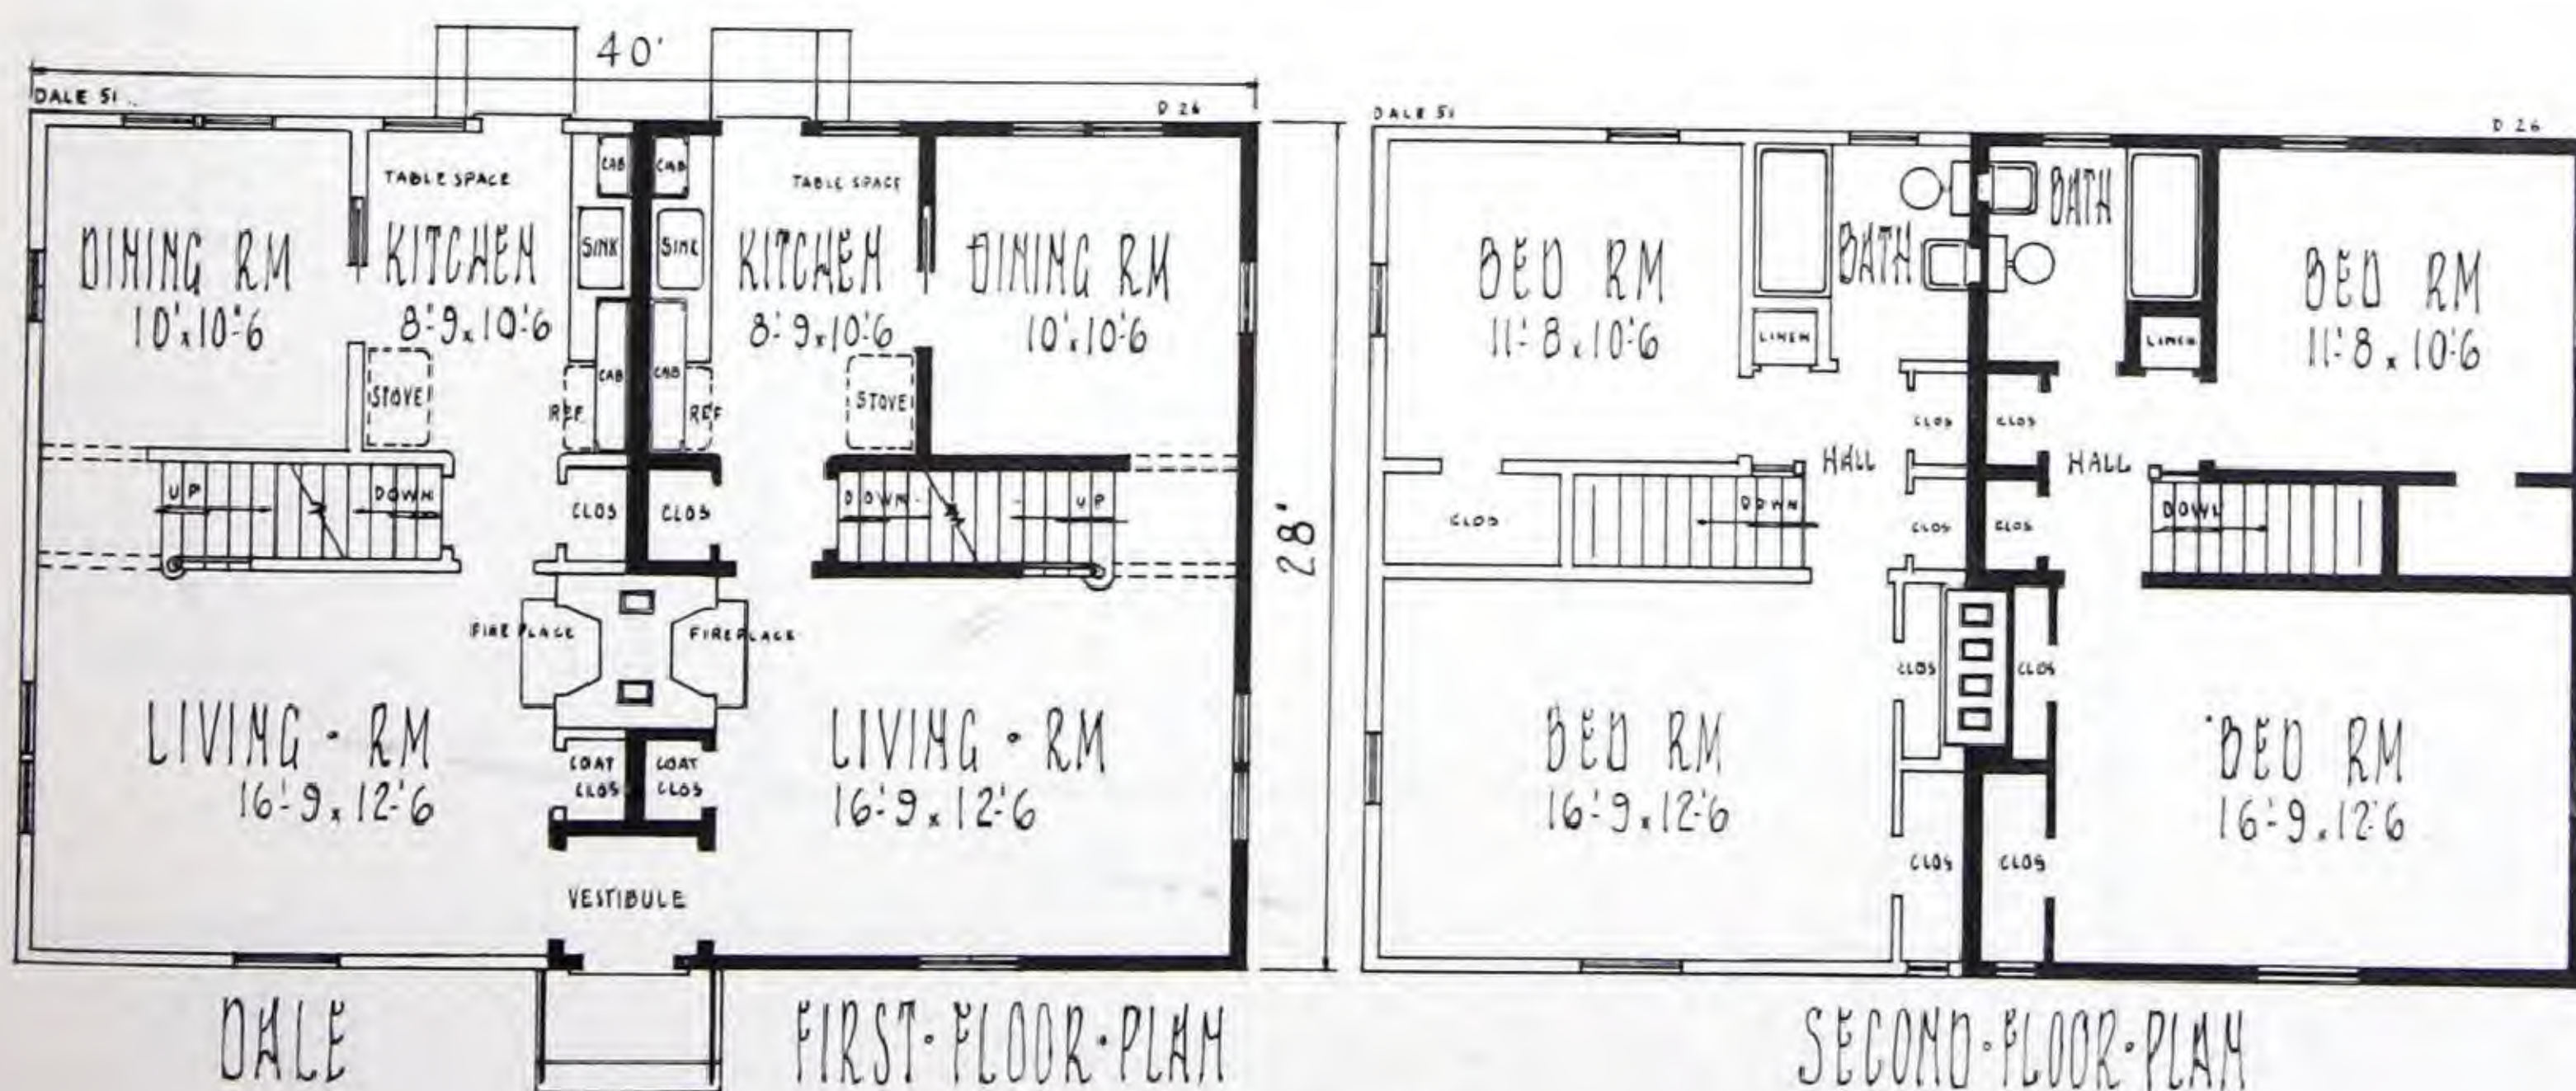

## *The Dale*

TEN ROOMS

1,120 SQUARE FEET

32,480 CUBIC FEET

**COLONIAL** design provides a very attractive exterior for this duplex. Each unit has a large living room with fireplace, dining room and kitchen on the first floor and two bedrooms and bath on the second floor. The abundance of closets will appeal to the housewife who "never has enough closet space." The full basement is divided and has a separate stair from each unit. The Dale lacks nothing as a well planned, comfortable home with a rental unit.

Classification 197-400

## *The Brush*

EIGHT ROOMS

1,170 SQUARE FEET

32,750 CUBIC FEET

THIS two story colonial has a two bedroom apartment on each floor. The stone and horizontal siding gives a delightful appearance to the exterior of the house. Classification 189-410

## *The Banner*

TEN ROOMS

1,218 SQUARE FEET

34,500 CUBIC FEET

THE pleasing appearance of this duplex was achieved by a combination of stone and wide siding. Each floor has five large rooms including two bedrooms, a large living room, dining room and kitchen. Large closets have been provided for each of the bedrooms and there is a linen closet conveniently close to the bedrooms and bath. There are additional storage closets on each floor and in the basement is found a laundry for each apartment. The central hall is accessible from every room in each apartment. Altogether, this duplex will make two very appealing living units and at the same time, a good investment.

Classification 214-0630

## WHY HOME OWNERSHIP?

Home ownership has always been the best investment for the average family. At the end of a given period of time, it is possible to have a clear title to a piece of property which will always have a market value. Because of the fact that building costs are steadily moving upward, there is no better time to build than the present.

The first step in the ownership of a home, after the lot has been decided upon, is the selection of a good plan. You will find many attractive and economical homes in this book that will fit your needs and requirements. It is important that your home should have (1) beauty of design (2) good room arrangement (3) economy of space and (4) low cost of upkeep.

In conformance with present demands of prospective home builders, as ascertained in national surveys, many of the homes in this book show the modern improvements that are demanded. The fundamentals of good design and planning have not been overlooked.

The amount of money available and construction costs will largely determine the size of the home and the number of new conveniences that may be included in the plan. Information on financing and home building costs can be secured from us, your lumber dealer. Remember, it is better to pay on a home of your own than to pay rent.

## A WORD ABOUT G I LOANS

The Servicemen's Readjustment Act (commonly called the "G.I." Bill of Rights) includes provisions for the most extensive home procurement program on record. It gives the serviceman the most economical home financing plan ever offered anyone. Servicemen are urged to contact their local dealer, lending agency or the nearest office of the Veteran's Administration for complete details.

## APPROXIMATE COSTS:

The price of a house varies in different parts of the country, depending on local conditions and the kind of materials used.

Every home in this book has a "Classification Number" from which the approximate cost of that home, exclusive of the lot and the garage (if detached) can be determined, as:

Classification 161-171

To arrive at the total construction cost, drop the first and last numbers. You then have 6117 which is the list price of that home in dollars. Your Lumber Dealer can give you the percentage to add to this list price for this community, as well as other valuable cost information.

## FINANCING

How should you go about financing your home? In the first place, you should know what price you can afford to pay for a home and how much you can comfortably pay each month in paying for it. The most advantageous plan for home financing provides for monthly payments on principal and interest over a given period of time, from 10 to 25 years. This is a painless, sensible way to pay for a home in easy installments just like rent, and in some cases actually cheaper than rent.

The following charts have been designed to eliminate the necessity of calculations in determining the equal monthly payment necessary to pay off a loan of a given size. The interest rate in Schedule A is 4½%, the interest rate in Schedule B is 5%, and for terms from 10 to 25 years. The payment shown in the schedules is the minimum uniform payment necessary to pay off the loan completely within the stipulated time. For information on 30 year financing, we invite your inquiry.
